

DILUTES AUSTRALIA LTD

INSTRUCTIONS FOR COLLECTION AND LODGEMENT OF DNA MATERIAL

You will need:

- ✓ **Ziplock baggie - clean**
- ✓ **Dilutes Australia DNA Collection Verification Form**
- ✓ **Animal Genetics Test Submission Form**
- ✓ **US Import Permit 2010**
- ✓ **DL Airmail Envelope**
- ✓ **Green CN22 Australian Customs Declaration - you can get them at the Post Office when you lodge the envelope**

Dilutes Australia Collection Verification Form

- 1. Complete & sign at the time of collection.**
- 2. Retain for lodgement with the Registration Application when the results are received.**

Mailing of test submission form and hair

- 1. Pull required amount of hair and place in baggie. Be careful not to touch the hair follicles.**
- 2. Complete Test Submission Form. Supply an email address for a fast turnaround of approx 10 days. Supply credit card details and the lab will make the exchange rate calculations and debit the account.**
- 3. Place Test Submission Form and US Import Permit in the Air Mail envelope with the baggie.**
- 4. Complete the green CN22 Customs Declaration with this information in the relevant boxes:**
 - **Description of contents - Equine mane & tail hair for DNA analysis**
 - **Tick box for Plant, animal or food products**
 - **\$AUD 0.00**
 - **Complete rest of Declaration with your details**
- 5. Lodge the envelope and the Customs Declaration over the counter at the Post Office. The Post Office will attach the Customs Declaration to the envelope and give you part of the Declaration back.**
